Contaminant Reduction

- The PureSourcePlus WFCB filter cartridge replacement is tested and certified by NSF International to meet or exceed NSF/ANSI Standards 42 & 53 for the reduction of:
- 97.80% of Chlorine
- 99.30% of Lead
- 99.99% of Cysts
- 99.80% of Particulates (Class I)
- 94.90% of Atrazine
- 87.50% of Toxaphene
- 94.20% of 2,4-D
- 99.70% of Turbidity

How to Replace the PureSourcePlus WFCB

1. Unscrew the filter cup and dump the water
2. Pull the used filter straight down and put the new filter inside the filter cup
(The end of the filter with the small o-ring should be up)
3. Screw the filter cup into the housing with the new filter in the filter cup
(The filter cartridge will align itself as the cup is tightened)
4. If your refrigerator has a "Change Filter" light, reset it

How to Reset the "Change Filter" Light

- Press and hold the reset button on the dispenser until the green light beings to flash (up to 15 sec.)
